I think that we would all agree that Cub Scouting is the future of the BSA. One of the most important ways to ensure that Cubbing will grow is by having well-trained leaders. Now is the time for Ambassadors to make sure that ALL Cub leaders in their council are aware of this exciting training opportunity at the Philmont Training Center. Let's make sure that we all double our efforts to promote the Cub Scout Extravaganza to our local cub leaders. I challenge all Ambassadors to make a presentation at their next District Cub Scout Roundtable to promote this wonderful training opportunity.

Pack Meeting Plan for Lights, Camera, Action (Positive Attitude)

January 8, 2013 by [Scouter Mom](#) — [Leave a Comment](#)

As an Amazon Associate I earn from qualifying purchases.

BSA has a Cub Scout pack meeting plan called Lights, Camera, Action related to positive attitude. The Lights, Camera, Action meeting plan features ideas for the core value of positive attitude – games, group activities, songs, and more while Cub Scouts take center stage.

Here is how the BSA plan suggests tying together this theme with the value of Positive Attitude:

Why Lights! Camera! Action! for the Core Value Positive Attitude. Let the spotlight shine on our Cub Scouts. Our Scouts spend many hours in front of the television set. Let's put that to good use this month, and use it to promote positive values and a positive attitude. Create a very special red carpet event at this pack meeting, and every Cub Scout will feel like a star.

Pre-Event Medical Screening

BSA SAFETY MOMENT

PRE-EVENT MEDICAL SCREENING

SUMMARY

Preparing for a campout or other event takes a lot of planning. One way to make sure everyone has fun and stays healthy while participating is to use the Pre-Event Medical Screening Checklist before getting in those vehicles. Helping to prevent the spread of communicable diseases should be included as part of your preparation.

GENERAL INFORMATION

Why should you add one more thing to your to-do list? Checking to make sure everyone is well enough to attend before heading to the event makes sense. The Pre-Event Medical Screening Checklist can help you do just that very quickly and easily. It is a tool to find out if someone is ill before you hit the road. Use it for everyone attending the event—adults and youth alike.

Before leaving, you should do a quick health check for every participant. This includes:

- Reviewing each participant's Annual Health and Medical Record (AHMR) with them. Make sure all sections are completed and identify any potential medical issues.
- Checking to make sure participants have enough medication for the entire length of the trip including all emergency medications, such as asthma rescue inhalers and EpiPens, if needed.
- Determining if everyone is healthy enough to travel and attend the event. Use the Pre-Event Medical Screening Checklist as a fast way to do a medical check. Eight quick questions can help to stop the spread of common communicable diseases to others in attendance. If someone responds "yes" to a question, the checklist provides guidance on what to do.

If you are traveling long distances, it may be a good idea to use the checklist upon arrival at the event too. Symptoms can pop up on the way, and by identifying an illness early you can potentially help prevent transmission to others in your group as well as to the others in attendance.

The Pre-Event Medical Screening Checklist is not meant to be printed and saved. Do not keep it as a part of the AHMR. In fact, you can use just one copy or an electronic version during your health check before leaving. No need to fill it out. Just ask each person the questions. That's all there is to it!

Pre-Event Screening Checklist

BSA Pre-Event Medical Screening Checklist

This is a tool to help leaders identify potentially communicable diseases in advance of event participation. The intent of this checklist is to review with each participant their current health status both before departure and upon arrival at the event.*

Name: _____ Date/Event: _____
Unit: _____ Campsite: _____

Do not participate if you have any of the following symptoms in the past 24 hours:

- Fever (100.4° F or greater)
- Vomiting
- Diarrhea
- New cough

Do not participate if you or anyone you live with has recently tested positive for COVID-19 or does not have test results back.

If you have a positive COVID-19 test, follow the CDC guidance for isolation and your personal health care provider's treatment recommendations.

Be responsible for your health and that of others. Isolate if you are sick. Do not attend any activity/meeting/event if you, anyone you live with or anyone you have recently been around feel unwell. Symptoms might include:

- Unexplained extreme fatigue
- Unexplained muscle aches
- New rash
- Sore throat
- Open sore

Participants who are symptomatic or ill should not attend or return to an activity until cleared by their health care provider.

*Councils are encouraged to customize this checklist with the engagement of local health authorities and their Council Health Supervisor.
